

PONTIFICIA UNIVERSIDAD CATÓLICA DE CHILE

DEPARTAMENTO DE ESTADÍSTICA / FACULTAD DE MATEMÁTICAS

OPENING ASSISTANT PROFESSOR

The Republic of Chile has received from BID the loan No. 7317-CH to partially finance the cost of the "Program Funding Tertiary Education based on results, MECESUP (2)", through the project: **Towards multidisciplinary research and teaching, strengthening and diversification of the PhD in Statistics**, PUC0802, awarded to the Pontificia Universidad Católica de Chile, and intends to apply part of this loan to eligible payments under this concourse.

General antecedents This is a concourse to fill a tenure track position at the level of Assistant Professor, beginning the second semester of 2012. Applicants should have a Ph.D. in Statistics or related area at the time of being hired, demonstrating a high potential for research and a strong commitment to teaching. The annual regular teaching load for an Assistant Professor consists of 3 semester courses, which are reduced to 2 during the first two years.

Application requirements: Applicants must have a Ph.D. in Statistics or related area at the time of being hired; the doctoral degree must have been obtained in an accredited national or international program, demonstrating potential for research in pure or applied statistics and a strong commitment for teaching and research. Only persons with at most 50% part time appointments in Pontificia Universidad Católica de Chile may apply.

BENEFITS

Contract Duration: -Full-time tenure track academic appointment at the Assistant Professor level

The initial contract will be for two years, funded by MECESUP, and with a salary according to pay scale of Pontificia Universidad Católica de Chile, previous to the categorization process

After two years and conditional on a satisfactory academic performance evaluation, the University can incorporate the academics at a full-time indefinite.

Contract

APPLICATION REQUIREMENTS

Applicant must send by surface or electronic mail the following documents.

- Curriculum Vitae.
- Copy of the certificate accrediting the doctoral degree in Statistics or related area and transcripts.
- A letter of purpose describing his/her research plan.
- Preprints/reprints if available
- At least three letters of reference, which must be sent directly to stat2012@mat.puc.cl or to Director Departamento de Estadística, Pontificia Universidad Católica de Chile, Casilla 306, Santiago 22, Chile
