

Faculty Opening
Assistant Profesor with a Doctoral Degree
Procedure code: PUC0802CD065

Fecha Publicación: 27 de Enero 2009

The Republic of Chile has received from the Banco Internacional de Reconstrucción y Fomento (BIRF) the loan No. 7317-CH to partially finance the cost of the "Program Financing Tertiary Education-Based Results, MECESUP (2) ", through the project: *Towards research and multidisciplinary teaching: Strengthening and diversification of the doctoral supply in Statistics*, PUC0802, awarded to Pontificia Universidad Católica de Chile, and intends to use part of this loan to make eligible payments for the support of this position.

General background (objectives, outline, etc.)

This position will fill an opening at the level of Assistant Professor beginning in August 2010 or March 2011. Applicants should have a doctoral degree in Statistics, demonstrate a high potential for research, and show a strong commitment to teaching. The annual regular teaching load for an Assistant Professor consists of three semester-courses, which is reduced to two courses during the first two years.

Application requirements

Applicants must possess a doctoral degree in Statistics at the time of hiring, demonstrate potential for research in pure and applied statistics, and show a strong commitment to teaching.

In the case of persons already affiliated with the Pontificia Universidad Católica de Chile, only those with at most a half-time appointment are eligible to apply.

Faculty Opening
Assistant Profesor with a Doctoral Degree
Procedure code: PUC0802CD065

BENEFITS

Contract length:

- - Full-time academic appointment at a level appropriate to the applicant's qualifications..
- - The initial appointment will be for two years, funded by MECESUP. The salary follows the pay scale of the Pontificia Universidad Católica de Chile, after an analysis of the qualifications.
- - After these two years and upon approval of the academic performance, the University may extend the appointment indefinitely.

Application requirements

Applicants should send (by mail or email) the following documents:

- Curriculum Vitae.
- Copy of the Certificate of the Doctoral Degree in Statistics
- A letter of intent describing the research plan.
- The name of three references that will send letters of recommendation directly to the email below.
- All application materials must be sent directly to
 Prof. Fernando Quintana, Department of Statistics, Pontificia Universidad Catolica de Chile, Casilla 306, Santiago 22, Chile, or by email to stats2010@mat.puc.cl

Selection procedure and evaluation of the applicants

The Council of the Facultad de Matemáticas has appointed a Search Committee which will evaluate the qualifications of all candidates. The final selection will require the approval from the MECESUP program with advice from the Committee for Advanced Human Capital, CCHA.
